Our new way of working

An essential tool for our new way of working

The **USB-C** cable is able to do all the things any other cable could not: it charges your laptop with up to 90W, reproduces 4K UHD with a refresh rate of 60FPS and can transmit up to 10 Gbps thanks to the USB 3.1 or USB 3.2 protocol. Due to its success, almost all modern devices now feature USB-C, and are planned to do so in the future.

This means you won't have to worry about replacing your cables all the time. Whether you are a pro-user, at home or in the office, or even on the go the USB-C upgrade is something you wouldn't want to miss.

USB-C Docking for supercharged productivity For office and corporate environments, AOC's **USB-C Docking monitors** from the P3 range below offer an enhanced clutter-free solution through a combination of USB-C, RJ45 & DP-out technology, removing the need for any bulky external docking standalones whilst guaranteeing high connectivity.
